

PRODUCT INFORMATION

MINOX BL 8x56, BL 13x56 and BL 15x56 Lightweight and powerful classic hunting binoculars

The successful MINOX BL binocular series has now been extended to include three new models with enormous light-gathering power. These perfect companions for game and nature observation in moonlight or twilight conditions are low in weight, with uncompromising quality and are available at an attractive price. In spite of their extreme twilight performance the MINOX BL 8x56, BL 13x56 und BL 15x56 each weigh just over 1000 grams. All three are ideal tools for nature and game observation and set a new standard in this segment.

The BL series is distinguished by a particularly lightweight design. The special properties of the innovative polycarbonate material provides a light and sturdy binocular body. With their

ergonomic design and rubber armoring the 56 mm BL binoculars are good and reliable to hold. The smooth operation of the new metal focusing wheel with rubber ribs is quick to adjust and features a finger-felt marking for the infinite setting. By feeling the actual setting the user can quickly focus on the game in view, even in deep twilight. With resting forearms also the models with 13x and 15x magnification can also be moved quickly and steadily. As an alternative, a tripod can be used that is attached to the tripod thread via a quick-action adapter.

The powerful optical system of the BL binoculars has multi-coated lens elements that guarantee highest optical performance and neutral color rendition of the subject

in view. Thanks to the roof prisms with phase correction coating the user enjoys an image with excellent detail rendition and also high contrast in all light conditions. A nitrogen filling on the inside of the binoculars prevents fogging of the glass surfaces even with severe temperature fluctuations and also provides permanent protection against corrosion. With the extended eye relief the entire field of view can be enjoyed without vignetting, even when wearing glasses. Twist-type retractable rubber eyecups with individual click stops are another convenient feature.

The scope of delivery of the BL binoculars also includes a wide Neoprene strap as well as an ever-ready case.
