

## **MINOX DTC 1000 Wildlife Camera**

## Your grounds always in view with your smartphone

With the innovative MINOX DTC 1000, you can monitor your property from anywhere in the world — that is, if you have your smartphone with you or have access to your e-mails.

The images are transferred quickly and directly to a stored smartphone number by MMS or to an e-mail address. The advantage offered by this function is that the user can respond to the situation immediately, from anywhere and take any necessary action.

With its 8 megapixel resolution, the MINOX DTC 1000 delivers an outstanding image quality with

Weight	14.3 oz. / 406 g (without batteries)
Order number	60701

pin-sharp details with high contrast and natural colour rendition. The high power infrared flash with a range of up to 15 meters ensures reliable images, even in unfavourable light or in twilight conditions. A black filter fitted in front of the infrared flash renders the wavelength range of the flash invisible to people and animals alike. The innovative GSM function with immediate data transfer of the photos via MMS or e-mail makes the DTC 1000 an ideal tool for use in hunting grounds as well as for safeguarding property and personal safety.

And thanks to its extremely short shutter delay of just 1 second, the DTC 1000 is always a highly reliable tool. All data are additionally stored on an SD card with up to 32 GB, or they can be directly read off from the integrated 2-inch monitor.

The reliable camera technology of the MINOX DTC 1000 is protected by a sturdy and weather-resistant plastic body that keeps out water, dust, cold and heat.
