# Riflescopes

All MINOX riflescopes are premium optics that are characterized by our decades of experience and know-how in the development of optical products. Every detail – from the lens coating to the finely tuned adjustment – contributes to achieving maximum accuracy even at long distances. Thanks to the robust materials used, the waterproof construction and the shock-resistant design, the riflescopes can withstand even the toughest conditions.

# RS-4 Series

The RS-4 riflescopes from MINOX impress with their stylish and compact design. They are perfect for all hunting applications. Whether you are out on a driven hunt, sitting game, stalking or shooting at long distances – with the RS-4 models you are always perfectly equipped.

## Elegant Design

Slim and compact construction.

---

## PRECISE RETICLE ADJUSTMENT

with clearly defined clicks for millimeter-precise adjustments and optimum target acquisition.

## FINE FIBER OPTIC ILLUMINATED RETICLE

for perfect adaptation to the light conditions.

**LOW-PROFILE ADJUSTMENT TURRETS**  
for an unrestricted view of the hunting action.

**EXTRA-LARGE OBJECTIVE  
LENS DIAMETER**

for a bright and clear image,  
especially at dusk or in low  
lighting conditions.

# RS-4 Series

For a safe shot in any situation and in all light conditions. The RS-4 riflescopes with universal 4x zoom offer everything a riflescope needs: high transmission, finely dimmable day/night illuminated reticle, a compact design and uncompromising stability.

- ▶ Extra-Large objective lens diameter, high transmission
- ▶ Low-profile adjustment turrets
- ▶ Precise reticle adjustment with click stops
- ▶ Fine fiber optic illuminated reticle, adjustable in 10 levels
- ▶ Optimized for clip-on devices

## Best performance in the right area of application.

# RS-6 Series

Discover the highest quality and precision "Made in Germany" – with the MINOX RS-6 riflescopes. Developed to give the best in every hunting situation: The RS-6 series impresses with a 6x zoom, robust design and brilliant optics for maximum imaging performance right into the twilight.

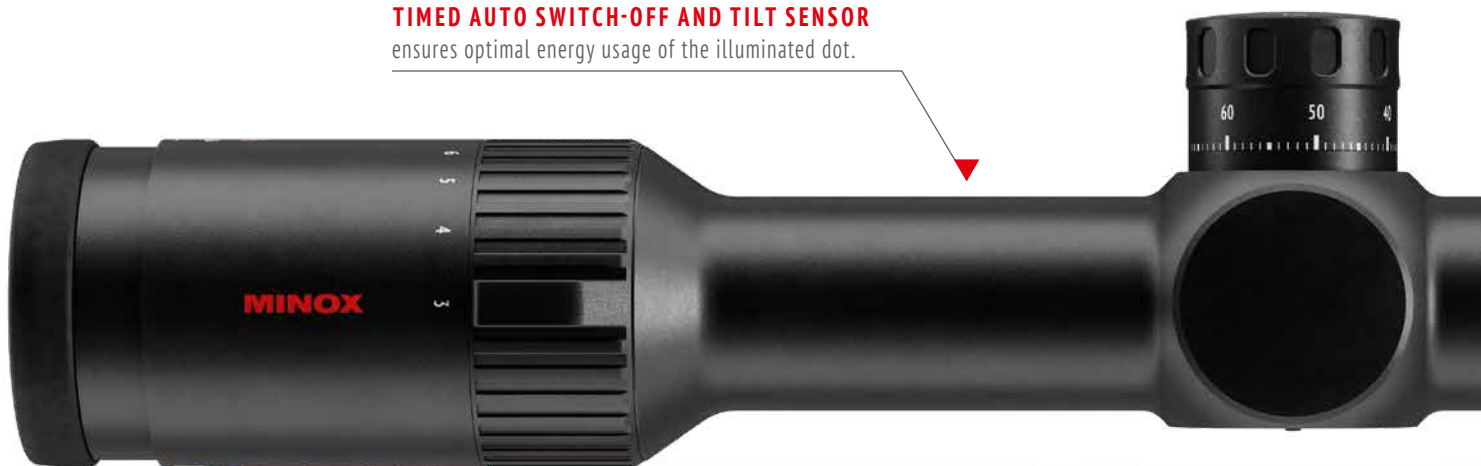

## High shot resistance

Due to robust materials and a precise, reliable design.

---

**TIMED AUTO SWITCH-OFF AND TILT SENSOR**  
ensures optimal energy usage of the illuminated dot.

**GENEROUS EYEBOX**  
easy and comfortable viewing.

**UNIVERSAL 6X ZOOM**  
flexible adjustment of the magnification –  
ideal for different hunting situations.

---

  
**MADE  
IN GERMANY**

**LOW-PROFILE ADJUSTMENT TURRETS**  
for an unrestricted view of the hunting action.

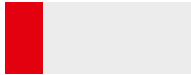

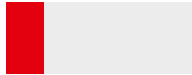

**MATCHING ACCESSORIES:**  
Ballistic turret for RS-6

With features such as the universal 6x zoom, a transmission of over 90% and the generous eyepiece, the RS-6 riflescopes are perfect for all light conditions and hunting situations. The dimmable illuminated dot is automatically switched off after 10 minutes thanks to the tilt sensor. Whether you are on a driven hunt, while stalking or sitting game – the RS-6 riflescopes offer you the flexibility and precision you need. Put your trust in MINOX as a reliable partner in the field and experience hunting at the highest level.

- ▶ Extra-Large objective lens diameter, high transmission
- ▶ Low-profile adjustment turrets
- ▶ Precise reticle adjustment with click stops
- ▶ Fine fiber optic illuminated reticle, adjustable in 10 levels
- ▶ Elegant and sleek design
- ▶ Optimized for clip-on devices

# Long Range

The 5-25x56 LR offers the highest level of mechanical precision, optical quality and robust construction at a gratifyingly low price. Above all, it has everything that the ambitious long-range shooter wants.

## For high demands on price and performance

Top performance and robust design at a pleasingly low price – an unbeatable overall package.

---

### MULTI-COATING ON THE OPTICAL ELEMENTS

provides excellent light transmission, contrast and color rendition.

### VERSATILE ILLUMINATION

The 11-stage reticle illumination with automatic deactivation for energy saving use.

### SAFETY AND COMFORT

Generous eye relief provides safety even for use with high calibers.

### PRECISION AT LONG DISTANCES

34 mm tube promises precise shooting even at long distances.

---

  
**MADE  
IN GERMANY**

**HIGH-QUALITY IMAGE**  
to the outer edges of the field of view – the result of a sophisticated optical design and the use of special glass types.

**OPTIMIZED RETICLE**  
reticle in the first focal plane  
specially developed for the ambitious sports shooter and hunter.

---

# Binoculars

Experience nature up close, see more, reliably identify game – in all light conditions and even at long distances. MINOX binoculars are optimized for clear vision and an impressive viewing experience. Their shock-resistant design and waterproof construction make them robust companions.

# X-RANGE

The MINOX X-range binoculars combine precise optics with innovative technology. The integrated laser rangefinder delivers fast and accurate measurement results – even in bad weather or over long distances. The practical angle correction display makes it the ideal companion in mountainous terrain or when birdwatching in high treetops. The accurate distance display also makes it easier to choose the perfect lens for breathtaking nature shots.

## Highest measuring precision at the decisive moment.

---

- ▶ **Integrated laser rangefinder**  
delivers fast and accurate results
- ▶ **Thanks to the magnesium housing**  
you are equipped for all demands
- ▶ **Operable with both hands**  
suitable for right- and left-handers

**AVAILABLE IN VERSIONS:**  
8x42 and 10x42

Particularly handy and suitable even for smaller hands. With their compact design, the binoculars take up very little space and are lightweight to transport in the backpack.

The maximum range of the X-range for exact distance measurement is 2,800 meters.

# X-HD

See more and react faster – even in low light conditions and at long distances? No problem with the MINOX X-HD binoculars: the exclusive ED lenses ensure a high contrast and very good detail recognition. Their high transmission provides a bright image even in the last light of the day and in darkness. All binoculars of the X-HD series are premium optics at an unbeatable price – made in Germany.

### Top performance

„Made in Germany“.

- ▶ **Compelling bright image**  
in low visibility conditions
- ▶ **ED lenses ensure high contrast**  
and very good detail recognition
- ▶ **Ergonomic handling**  
thanks to open bridge

### AVAILABLE IN VERSIONS:

8x44 / 8x56 / 10x44

---

  
**MADE  
IN GERMANY**

# X-UNIVERSAL

The new X-UNIVERSAL impress with their brilliant imaging performance, made possible by high-quality ED lenses. Even the finest details and the most subtle movements become visible, thanks to the exceptional level of detail and image sharpness extending to the edge of the field of view. A special magnesium coating further enhances durability and complements the modern design of the binoculars.

## Finest details

and maximum brilliance.

- ▶ **Attention to detail and imaging performance**  
due to the high-quality ED lenses
- ▶ **Wide field of view**  
for perfect overview
- ▶ **Robustness**  
through special magnesium coating

## AVAILABLE IN VERSIONS:

8x42 / 10x42 / 10x50

Robustness and durability. The magnesium housing makes the MINOX X-UNIVERSAL binoculars particularly robust and resistant. At the same time, they are lightweight and durable. So you can always rely on your binoculars in demanding terrain and under adverse conditions.

# X-TOUR

One for all occasions – the MINOX X-TOUR binoculars are designed for all areas of application. Their high-contrast, vivid and sharp image allows you to see the smallest color differences when observing nature as well as identify important details when hunting. Their focusing accuracy at close range and reproduction of details make the X-TOUR binoculars particularly suitable for birders.

### Full focus

on every detail.

- ▶ **Precision and brilliance**  
especially at close range
- ▶ **Particularly robust**  
and resistant to dust,  
dirt, and water
- ▶ **Imaging performance**  
High-contrast and vivid image

### AVAILABLE IN VERSIONS:

8x26 / 10x26 / 8x34 / 10x34 /  
8x42 / 10x42

MINOX X-TOUR binoculars offer outstanding focusing accuracy at close range, ideal for enthusiastic ornithologists and nature observers.

---

# Red dot sights

Our specially developed sights set new standards for driven hunts. An extra large field of view ensures that every movement remains in view. Brilliant optics and fast target acquisition enable precise action – whether you are dealing with escaping game or unexpected situations. For a safe and successful hunt.

# RV 1

For friends of hunting wild boar on driven hunts, MINOX has the perfect companion: The new RV 1 – a compact, enclosed red dot sight with 1x magnification. For a full overview and maximum safety when hunting at short distances, the RV 1 has a clear, fine 2 MOA red dot. Get on target more quickly at close range without a defined eye relief and with both eyes open.

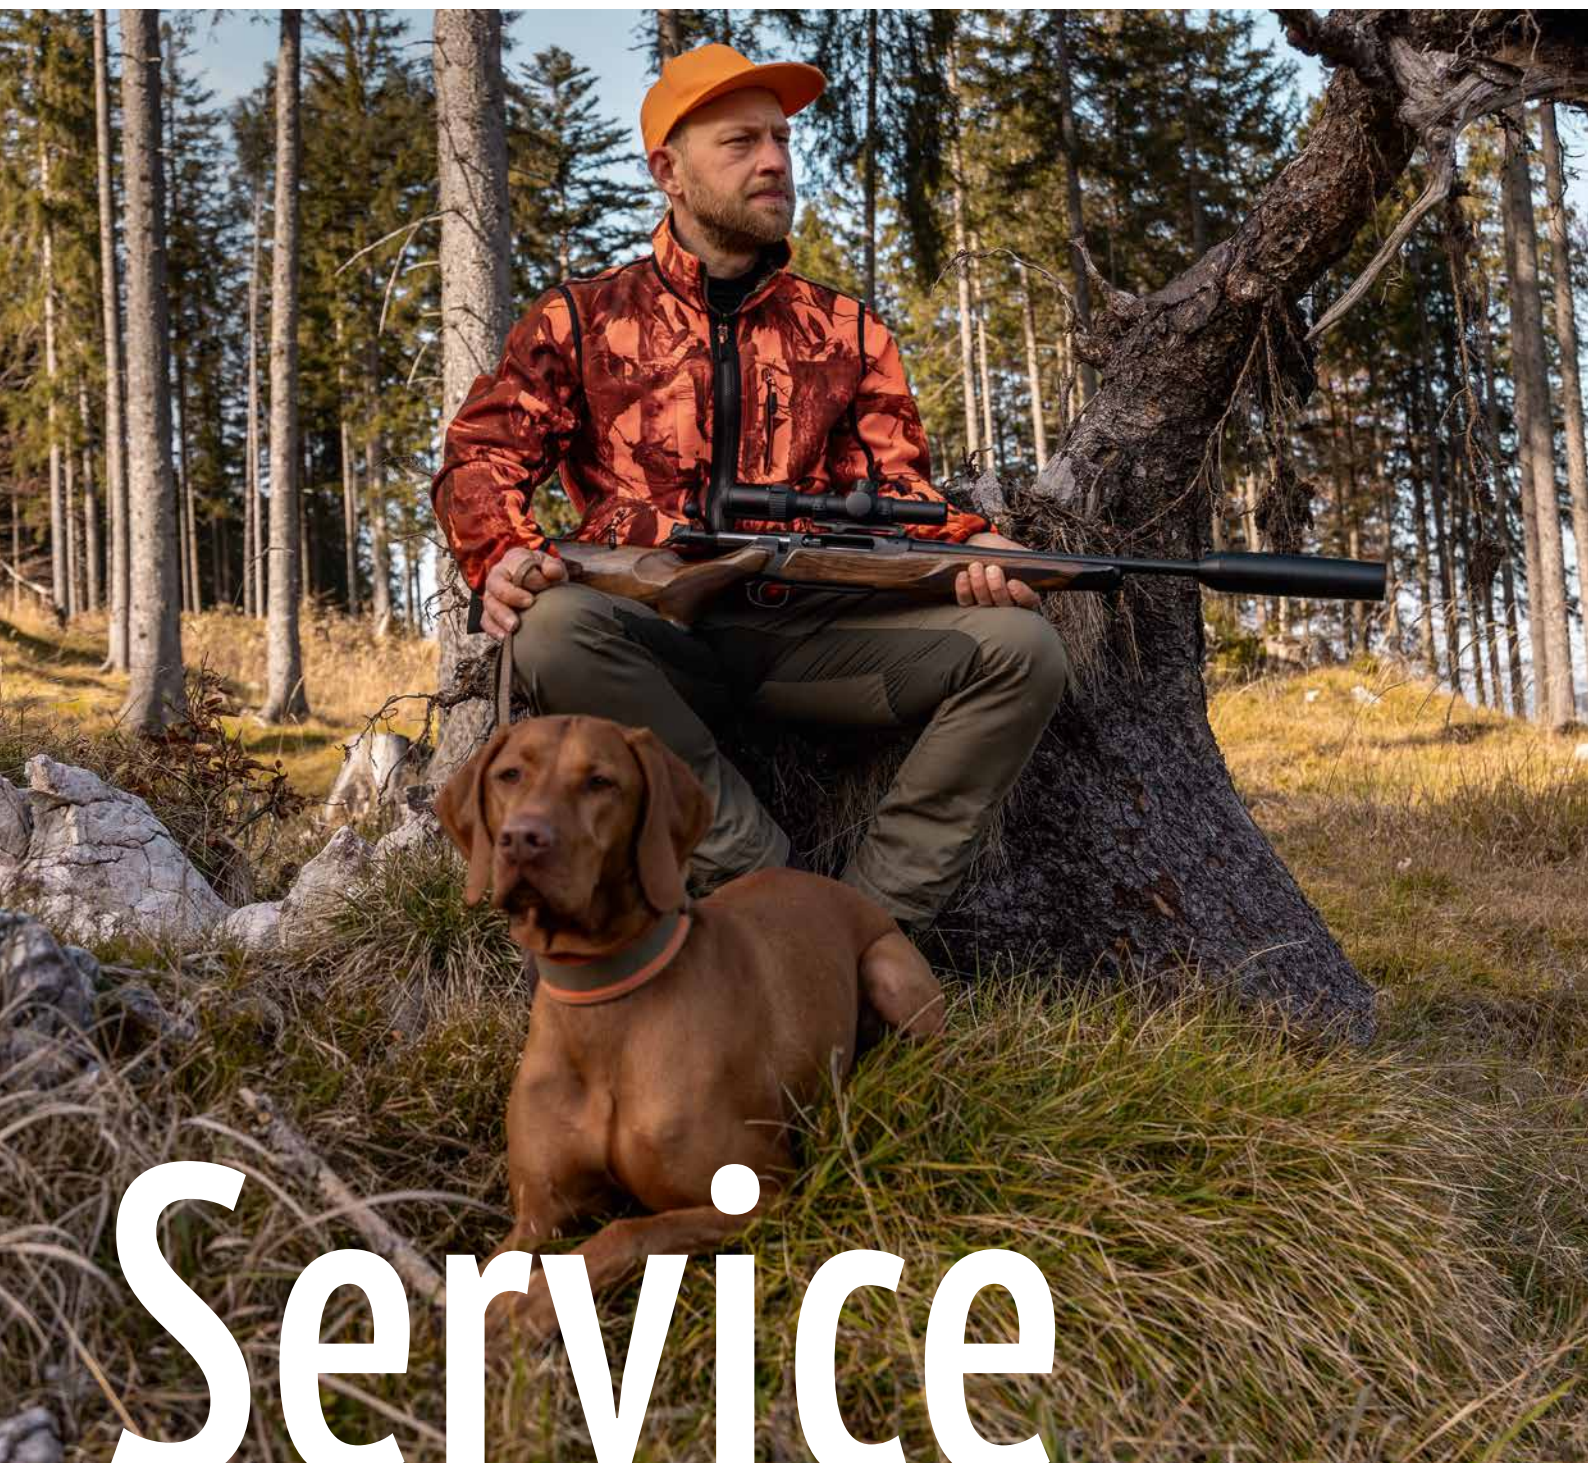

### Both eyes

on target.

---

- ▶ **Finest MOA red dot**  
for a fast target acquisition
- ▶ **11 brightness levels**  
3 NV optimized levels
- ▶ **Compact construction**  
robust and light
- ▶ **Up to 50,000**  
hours battery life

MINOX stands for precision, innovation and the highest quality worldwide. Since its foundation in 1945, the company has established itself as a pioneer in cutting-edge optical technology. With the “Made in Germany” seal of quality, we guarantee exceptional products that meet the highest standards – from development to production.
